THE MULTI WAFFLE

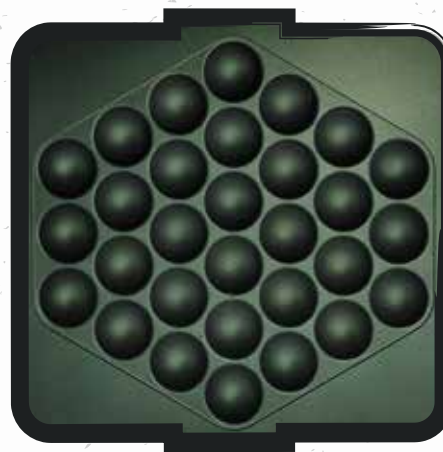

A first of its kind, the Multi Waffle by JM Posner has a huge choice of 8 different waffle plates, so if you would like to serve traditional round Belgian waffles, follow the latest craze in bubble waffles or stick waffles for eating on the go, look no further. The Multi Waffle is also the most compact unit we have produced. This smaller footprint will give you more space on your counter to work with. The Multi Waffle comes with an auto start function that can be pre-set to any time you would like, an essential feature if you have busy staff that may forget to turn on the timer when you start cooking (its easily done when busy!).

THE WAFFLE PLATES

The 9 interchangeable plates* are easily removable so that you will be able to quickly change them on site to react to your customers ever changing demands. All of the plates are supplied with non stick Teflon coating, this offers perfect waffles without the need to spray the plates with oil. The Multi Waffle is also designed with the future in mind, it allows us the opportunity to add new waffle plates as times and trends change and even allows for custom made plates.

BUBBLE WAFFLE

THE SUPPLIES

The waffle mix you serve to your customers is as important as the waffle maker you use to prepare them on. At JM Posner we stock a range of top quality mixes, whether it's the most popular Belgian waffle mix, gluten free waffle mix or chocolate waffle mix, we are confident your customers will love them. We also supply a range of toppings and fillings such as Nutella or Lotus Biscoff spread. All of our products are chosen with your customers experience in mind so that you can welcome them back time and again.
